EDUCATION

Eulogio "Amang" Rodriguez Institute of Science and Technology

Cavite, Philippines

Bachelor of Science In Information Technology

Graduated August 2023

Relevant Coursework: Data Analysis, Software Engineering; Operating Systems; Algorithms; Artificial Intelligence

WORK EXPERIENCE

IVE Group Australia

Melbourne, Victoria, Australia

IT Developer (Remote)

Nov 2023 – April 2026

- Processed **millions of records** for enterprise bank communications using **SQL, Netsuite and Excel**.
- Developed high-fidelity automated mailing workflows via **HP Exstream** and **InDesign**
- Ensured **100%** adherence to strict client printing requirements for large-scale mailing

Department of Information and Communications Technology

Cavite, Philippines

Junior Software Developer (Intern)

May 2023 – Aug 2023

- Deployed a Senior Citizen Database Management System using **PHP, JavaScript, and MySQL** for private company use.
- Collaborated with Senior Developers to implement features, ensuring data integrity, and system security.
- Resolved complex software bugs and hardware issues while performing automated testing for internal features.

PROJECTS

LIVE CAPTION OVERLAY TRANSLATOR

github.com/Bakemono21/OverlayTranslator

- Real-time text detection and translation for windows applications.
- Using **C#, .NET** and **SQLite** integration with major translation providers like **Google Translate, OpenAI, Baidu**, etc.
- Designed a non-intrusive UI overlay using Windows APIs for translation without interrupting the user's active application.

SENIOR CITIZEN DATABASE MANAGEMENT SYSTEM

github.com/Bakemono21/SeniorDatabase

- Web application developed with **HTML, CSS, JavaScript, PHP, and MySQL** technologies.
- Manages essential information for senior citizens, having accessibility through a user-friendly interface.
- Deployed and used by **thousands** of users, improving data retrieval efficiency by **90%**.

COMPUTER SYSTEM SERVICING E-LEARNER APP

github.com/Bakemono21/LearnCSSmobileApp

- Integrated **Object Detection** using **TensorFlow Lite** using **Android Studio**.
- Provides informative content like quizzes, 3D visuals, AR, and object detection for an improved educational experience.
- Conducted user testing and performance tuning to ensure low-latency object detection on mid-range mobile hardware.

SKILLS

Languages: C# / .NET, Java, PHP, C++, Python, Javascript

Frameworks: .NET MAUI, PWA, Bootstrap, Laravel, HP Exstream, Git, Github, Docker

Database & Cloud: Microsoft SQL, MySQL, SQL Lite, Firebase, AWS, Vercel

Other Tools: Netsuite, Adobe Indesign, Excel, Github Copilot, Gemini Code, Claude Code,

ADDITIONAL

I am **25 years old** and have **4 years experience** doing software development and data handling. Currently in the **Philippines**; relocating to **Taiwan** in mid-2026. Requires **Professional Work Permit sponsorship**; all prerequisite documents (NBI Clearance and Diploma) have already been **Apostilled by the DFA** for immediate transition. Fluent in English; Basic Mandarin (Self-studying). Available for Teams or Zoom calls.
